Advert Description

Please say hello to our beautiful blue colour point Birman boys. Sven and Olaf have been bred in our family home with lots of love and affection. These boys have been a real pleasure to raise. They are very affectionate towards us and each other. The boys will be fully vaccinated, wormed, de-flead and microchipped prior to leaving for their forever home. The boys are G.C.C.F registered on the non active register. They have been weaned onto royal canine kitten. They have done a great job with litter training and are fully trained. Clever boys. The boys will come with 5 weeks free insurance also a unique kitten pack. They have been given a bill of perfect health from the vets also. Mum is our much loved family pet. She is extremely loving and affectionate, traits which both boys have taken from her. Should you require any further information please don't hesitate to contact us. Many thanks
