Blackstar ID:TVP 100W guitar amp head:

Fantastic condition (never gigged, no bumps, no sign of wear) simply getting rid of it as I have downsized to a smaller amp

Powerful 100 watt head with TVP (true valve power) giving a great authentic valve amp feel. Perfect for gigging but sounds equally good at lower volumes making it usable in bedrooms/ smaller practice spaces etc as well as being much lighter than a valve amp. Wide range of tones suitable for almost any style of guitarist. Emulated output makes for good quality, easy home recording.

Spec:
