

Rocker BMX Mini BMX Bike iROK HAZE Rocker. (80 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-394967-z>

Rocker BMX. HAZE iROK+. Endorsed and Ridden by Harry Main Chunky scaled down mini versions of 20" BMX's designed to take a serious amount of adult sized abuse. New Lighter Hi tensile steel frame, forks & bars. Top load stem, thread less forks, 10" x 28" bars, plastic BMX pedals with matching Kraton rubber grips. New reduced fork clearance for easier foot jams, tapered stays, angled seat clamp and micro drop outs for a super clean looking back end. Rockers are a RAD innovation designed by BMX riders at Rocker BMX LTD. The boys have spent a very long time developing the perfect geometry and component selection to make Rocker BMX's easy to ride, comfortable and of course to look totally sick. Rockers are about having a blast with your mates and are quickly becoming the latest craze of 2013/2014. You may well have already seen dudes shredding them your local park & wondered, where can I get one??? Well you can get one here, direct from the manufacturer!!! Rockers are chunky scaled down mini versions of 20" BMX's designed to take a serious amount of adult sized abuse. Fat tyres, massive bars, top load stems every bit as RAD as a 20" & great fun for kids from 4 years old to Dad's of 40 years old. With plenty of colour-ways to choose from including LTD editions, some people have already started collecting them! The iROK is the brand new entry level Rocker from Rocker Bikes. New lighter weight Hi tensile steel frame / forks with shorter back end. Front load stem with forged face plate, thread-less forks, 10" x 28" bars, plastic BMX pedals, kraton rubber grips, 30/14 gearing (allows you to actually pedal at up to 15 mph), sealed cartridge bearings 1 piece hi ten forged steel cranks, USA BB, fat padded seat, brand new design steel 3 piece wheels with very loud freewheel (new wheels roll much better than the previous Rocker wheels for higher speed on ramps or just chilling). New lighter weight Pneumatic rubber 10" chunky tyres, colour matched KMC chain. Weight 9.5 kg or 20.9 lbs a saving of 3.3

lbs on the original Rocker. Features Brand new design New lighter weight Hi tensile steel frame / forks. New black end load stem with forged face plate, thread less forks, 10" x 28" bars. Plastic BMX pedals with matching Kraton rubber grips. New reduced fork clearance for easier foot jams, tapered stays, angled seat clamp and micro drop outs for a super clean looking back end. Rockers are a RAD innovation designed by BMX riders at Rocker BMX LTD.
