The Camden floor sanding team have been restoring wooden floors across London from years now. We are experts and we are here to offer you the full range of floor renovation services, from simple advice to full-blown wood floor restorations. We provide homes and companies throughout the area with the means to bring out the hidden potential in their natural woodfloorboards.

First, the process starts with assessing the damages and proceeding with repairs as required before the floor is sanded down. The floor is sanded until all the original finish is gone, wood filler is applied and floor is buffed until smooth.

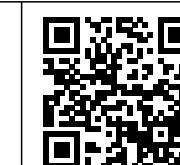

We use dust-free sanding machines and the latest eco-friendly stains, varnishes and other finishes, making even the most decrepit looking wooden flooring shine like new, with the minimum of disruption to your household or business.

Then the stain is applied or the natural wood colour is retained.

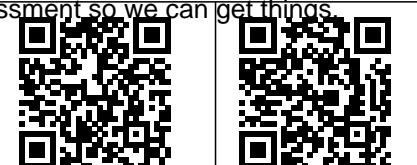

In the end the floor is finished in choices of satin, semi-gloss or high-gloss with coats of polyurethane or water base finish.

Contact us today to find out more about how we can renovate your wooden flooring in London, or to book

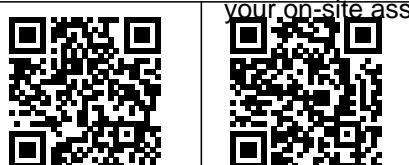

your on-site assessment so we can get things
