Still in the original box, and working perfectly! Added to original set is an automatic lap counter and a short straight to go opposite. There are three cars, all of which work, but each have some form of damage to the front wings and rear spoilers (see pictures). A lot of fun to play with though! Please note that this is an original set using the original track system. Lots of spare braids including too. Collection from Epsom (Surrey), £30 (reasonable offers)
