The Toyota Aygo really is the pinnacle of Japanese Engineering. This wonderful little run around car is brilliant for those first time drivers that are looking for something that is cheap to insure, cheap to tax and cheap to run on a daily basis. The cute little Aygo costs only twenty pounds for a years tax and really does look the part too! That's not all though, it can return you a remarkable 68.9 MPG on a run, with a still very respectable average of 61.4 MPG, with current fuel prices being on the rise, this means that you won't be breaking the bank on fuel! What more could you ask for really? If this is something that you're in the market for then please do give us a call, this one won't be here for long! At acar2go we offer a Customer Service which is second to none, we have been approved by the Trading Standards on the Buy With Confidence Scheme which really should give you peace of mind when buying your next car from us and not only do we look after you before and during the sale but afterwards as well.
