Enjoy your garden in the sun, rain or hail with this strong, dependable Bramblecrest 2.5m parasol with a brushed aluminium (38mm) pole and a crank handle to ensure the frame can be opened and closed with ease. It has a water resistant canopy and is rust free.

We bought it as part of a set of furniture for our conservatory but we have no need for this parasol which is therefore totally unused and still in its original packaging & remains unopened...

The dimensions are 2250mm tall, 2470mm wide and weighs 6.5kg. The granite base weighs 15kg.

We can arrange delivery (at extra cost) or buyer...
