

Yamaha NP-30 Digital Keyboard quotPortable Grandquot (90 GBP)

Location

South East, West Sussex

<https://www.freeadsz.co.uk/x-405407-z>

This digital piano has an excellent feel to it. Perfect for beginners or for advanced players who might want something portable or for small spaces to practice on as I did.

Comes with a stand and sustain pedal (the sustain effect on this piece of kit is pretty impressive for a digital piano).

Selling due to moving abroad and would like it to go to a good home. It is in near-perfect condition as it has not really been used that much and is only a couple of years old.

I am happy to arrange a courier after purchase, but otherwise this one is collection only.

Manufacturer details can be found below:

Graded Soft Touch Keyboard:Just as on an actual piano, the lower keys are heavy in touch and the higher keys are light, whilst retaining the soft touch of a digital keyboard for beginners.

Slim, Light & Compact Design:Walk in, carrying the NP-30 with one hand, and play - it's that easy anywhere thanks to the new slim, light and compact design.

Advanced Wave Memory (AWM) Stereo Sampling:The AWM (Advanced Wave Memory) is a sampling system which creates sound close to that of an acoustic instrument by using digital technology to record the instrument sound and applying high-quality digital filter technology to the recorded audio samples.

AWM Stereo Sampling creates a more spacious, deeper, and richer sound by using a pair of waveforms (L and R), obtained via a stereo recording process.

Built-in Stereo Speaker System:This instrument uses highly efficient amplifiers that pack more sound into a lighter digital piano. With 6 watts per channel, these keyboards are ready to go whenever you are.

Battery Power or AC adaptor:It will run either from an optional AC adaptor or.
