

In my opinion this is the best combo amp you get buy for busking. It is loud, the battery lasts ages, the quality is highly superior to anything else on the market for this purpose, and it even has a quality EQ. Used for busking at the London Olympics and not much since, now needing to pass it on due to to moving abroad. It comes with the charger and a handy trolley with wheels which is perfect for taking on the train or tube.

Collection only but open to arrange a courier or something similar if necessary. Message me if you have any questions.

Manufacturer information can be found below:

The Traynor TVM50 battery powered amplifier is designed for the musician on the move. Perfect for rehearsal or street corner concert, the 50-watt TVM50's two-channel design allows quick connection to any microphone, instrument and CD / MP3 player. Individual volume control as well as separate tone controls on the input channels makes the TVM50 a complete ultra-compact PA system solution. Channel one is tuned for vocals with an XLR / TRS combi-jack input for low or high impedance mics. A single sweepable tone control that boosts intelligibility and overall presence with a minimum of tweaking makes the TVM50 ideal for quick set up. A 1/4-inch input on channel two handles any instrument source including acoustic or electric guitars and keyboards. An additional RCA auxiliary Input allows quick connection to CD or MP3 players.

The TVM50's wedge monitor shape projects to an intimate audience from ground level. An integrated stand adaptor allows the TVM50 to be mounted on any speaker stand when used as a small announcement PA or background music source.

• 50 Watts Output Power • 10-inch Woofer with 2-inch Tweeter • Battery Powered (Rechargeable)
 • 5.1 Larger Input Channels • 3.5mm TRS Composite Input For Stereo Connection • 1/4" Input
