I had a complete derbi senda E2 blackdevil 2004. This bike was on the road recently I have keys and v5 in my name and current M.O.T until 13th november 2016. However this bike was removed from road use due to needing water pump seal and swinging arm bushes replacing.

so the engine is out the bike as is swinging arm, if purchased this bike will not be able to be ridden away. The works stopped due to the fact that when bolting the clutch case it damaged the inner engine casing however this is repairable

In my infinite wisdom I decided to purchase a derbi senda SM to turn my bike into a project bike with better forks and suspension, however due to unforeseen circumstances I am now unable to complete this project, I am able to send these bikes as a complete project if the right price is offered or break for parts if there is enough interest.

I have all the parts to put the bike back to its original condition, this also includes; Spare race carb and jet kit
New chain and sprocket
Headlight Cowling
New Stand spring
Spark plug (new boxed)
New water temp sensor
New Speedo cable and speedo drive
Spare brake caliper and master cylinder
Handlebars
Various plastics
Digital speedo (from SM)
2 SM wheels and forks and swinging arm
Two stroke tank (SM)
In total there are 3 engines
3 CDI Units
2 original wheels and forks and swinging arm
Alloy frame

IF OTHER ITEMS INTEREST YOU THEN I WILL POST THEM ON EBAY AS A BUY NOW AND POSTAGE WILL BE BUYERS RESPONSIBILITY COLLECTION PREFFERED DUE TO WEIGHTS AND SIZES OF PACELS.

~~Enough to build one and a half good bikes~~
