Router Joinery with Gary Rogowski Routers can be used to cut a wide variety of joints quickly and accurately. In this video, professional woodworker Gary Rogowski demonstrates router joinery techniques that can be mastered by any woodworker. You'll learn why correct setup and good stock preparation are essential to accurate work, and you'll see how to cut common frame and carcase joints using a hand-held or table-mounted router. You'll see how to rout: • rabbets, dados and grooves • half-laps • mortise-and-tenon joints • loose-tenon joints • half-blind and through dovetails • sliding dovetails This video is a companion to Gary Rogowski's book, Router.
