The bike's got rust as you can see. And I'm selling it so cheap because the breaks don't work, so you'd just have to get that looked at, but in Brighton there's a couple of good places where they do it cheap and teach you how to, if you don't know how. I just haven't had the time to do it myself. I'm also selling two locks (Kryptonite KryptoLok S2 Std D-Lock with 4 Foot KryptoFlex Cable) and front and back light. Both locks and lights cost me quite a lot more so they're good.
