Frost-free freezer so no mess! Beko Freezer Guard technology (freezer can be kept in garage or outbuilding even when it's as low as -15 deg Celsius outside). Fast Freeze setting. Reversible doors. Integrated flush handles. White. Very quiet. We purchased this new from Currys, and used it for 7 months in 2015 before we moved. (It has since acted as a lamp table in living room!) We held onto it in case we needed it again but realise now that we won't. Extremely clean – only well-sealed items went in it. No spills, stains whatsoever. Really is in like-new condition. Approximate measurements: H84cm x W54.5cm x D59.5cm Sells at Currys for £189.99. Asking only £90 ono. We \*might\* be able to deliver within Brighton&Hove area. We could provide one strong person to help carry it but you, the buyer, must provide another strong person. The other half of our duo will shout unhelpful directions while you carry the freezer downstairs! From Currys web site: (read the 780+ reviews) Scoring 4 stars for freezing and an A+ for energy efficiency this freezer concentrates on efficient use of power, and keeping your food fresher for longer.

At 84 cm high, the Beko FXF5033W will slide perfectly under your work surface, and with a reversible door you have flexibility in where you place it.

Protect your food

In the unlikely event of a power cut, the Beko FXF 5033W Undercounter Freezer gives you a safe storage time of 10.5 hours so you won't lose your supplies.

It even has Freezer Guard technology so it can operate in ambient temperatures as low as -15°C and can be placed in a garage or outbuilding.

Up to 10.5 hours of power cut protection. Freezer Guard technology uses an electronic temperature control system to keep the freezer working even when ambient temperatures plummet as low as -15°C.

Reversible door hinge. This refrigerator has a reversible door, please consult with installation experts such as our Knowhow team to carry out door.
