Rainsaver 190 litre Water Butt Kit, Brand New Never Fitted, RRP £60 Bargain £25

The Rainsaver 190 litre Water Butt Kit is the biggest selling water butt in the UK and is recommended by UK water companies all over the country.

The enclosed Rain Diverter Kit channels all the rainwater that falls on the roof of your home direct into the water butt, which can then be used for watering the garden or other outdoor jobs.

The stand raises the water butt to make it easier to fit a watering can under the tap to fill it.

The water butt is supplied pre-drilled and with our easy-to-follow instructions, fitting could not be simpler.

Kit Includes: Rainsaver Water Butt with a tap and child safe lid, 1 x stand and 1 x Rain Diverter Kit.

The Rain Diverter Kit fits standard 68mm (2.7") round and 65mm (2.5") square plastic downpipes. Not suitable for cast iron downpipes.

Please note that the water butt and stand should always be situated on a flat and level surface.
