this is a 2008 (57 plate) 50cc moped

 its only done 7200 miles so low for its year
 it runs very well and is ideal for a first bike for someone and is very reliable
 its just had a new battery fitted and a new carburetor fitted as well
 the electric start needs a new solenoid for the starter but it starts on the kick start with no problems so not really bothered me it start runs and rides really well
 and like i said this would make an ideal first bike for someone or even a cheap little commute moped to get to and from work on
 £395 ono
