This is an accurate powerful drill that comes with two batteries so you'll never be left with no power on a construction site again. On top of that, the charge time is only an hour long so you'll be up and going in no time. With 16 adjustable torque settings to reduce the risk of damage to screw heads and features such as hammer action, normal drilling mode and variable speeds, this drill is hard to beat, Housed in a heavy duty constructed casing, the control and power you have over this drill is well worth the money you pay for it.
