Only selling this car due to having a new one and can't afford to run 2 cars and partner is non driver. It's a reliable and excellent runner and it can shift. It has slight scrape to the back bumper as you can see, but easily fixed with paint. I've had no time and weather not been great. It has good tyres all round. Electric windows all working order. Cd/ radio all working too has good sound. It's really good on fuel. And has M o t until Jan 2017 which I think it will fly through. Never had any problems with the car. Interior is clean inside too. No rips or tares Sorry to see it go to be....
