At Consultant Direct Limited, our mission is to help clients grow their businesses and operate at maximum efficiency.

Over the period of past three years, we successfully provided management accounting and consultancy services to a portfolio of various clients. It includes small business entities, limited companies, partnerships and self-employed businesses.

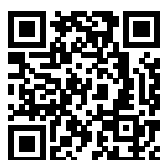

This resulted in saving of money for these businesses and improving profitability and growth. This could involve changing suppliers or introducing new business procedures.

The kind of services we offer include;

1. Carrying out research and data collection to understand the organisation
2. Identifying and assessing the pros and cons of possible strategies
3. Forecasting and planning future spending and profits
4. Improving business performance by recommending ways to reduce costs and increase profits
