My name is Aaron Smith and I have been an employed professional photographer for over 10 years doing everything from family and child portraits, pets and various products. I am currently setting up my own business, but my portfolio is limited because all my work is owned by my employers and I am not able to upload and use my work on my own personal website. If you're on a budget or you just want to free up some cash to spend on your honeymoon then this is your lucky day and you won't be disappointed with the results. I'm offering the whole package of pre wedding shoot, the ceremony and the evening shoot as well as post edit of the photos and will have them delivered to you within a couple of weeks on a USB, CD or DVD and then you can share them with family and friends. All I ask from you is that you will allow me to showcase the photos taken on the day on my website (SnapperSmith.com Currently under construction) If you think that this sounds too good to be true then we can have a chat on the phone or via e-mail, and we can discuss what you want from me on your day.
