Black and Chrome 3 oven Gas Aga with AIMS (Aga Intelligent Management System) and Power Flue. At the moment it runs on LPG but I've been told by the Aga Engineers it can be converted easily and cheaply to run on Natural Gas. Less than 5 years old and has full service history. Only one oven has ever been used. It was purchased by the previous elderly owner of our house in 2011 and she only used one oven, and one hot plate to make toast. She moved out in 2014 and it wasn't used again until we used it for 5 months last winter so it has hardly had any use but still regularly serviced and maintained under a contract with Aga. Last serviced 8th August 2016. No damage whatsoever. It has the Aga Intelligent Management System so it is fully programmable. All paperwork available including the original purchase invoice of almost £9,000. Rare 3 oven model, most seem to be 2 or 4. The new price for this item is now around £10,000 We are changing to oil so that is the reason we need to (reluctantly) sell it. Buyer arranges dismantle and collection. No time.
