Spectrum Specialist Support is very pleased to announce that we offer cleaning and maintenance services tailored for silos and storage containers. We cover a full spectrum of industries including; flour, wheat and grain silos, concrete/lime silos, animal feed silos, oils and fats, and other raw materials.

We have developed our own specialist equipment for effectively cleaning silos that enable us to save our clients time and money without sacrificing quality. Our equipment and approach to each site is unique to ensure safety, hygiene, and to avoid cross contamination of products. We understand the responsibility of being entrusted with hygiene for the food industry and we make sure our operatives adhere strictly to guidelines and standards by keeping close track of the progress of each project. You can trust Spectrum to deliver a thorough job, and we will ensure you are happy with our rope access silo services.

All of our silo maintenance projects are planned carefully, and we are dedicated to health and safety; we always ensure site specific RAMS are in place and guarantee an IRATA level 3 technician is always on site to supervise works. Furthermore all of our experienced technicians are high-risk confined space and first aid trained to best provide safe working.
