My Daughter and I intended to keep the remaining pup who was the pick of the litter. However after much arguing and debate my wife is adamant that he has to go as we already have 4 dogs.

The puppy was born on the 5th March

Fully vaccinated, micro-chipped, Fully wormed and anti flea treated.

The puppy is currently living indoors but was born and lived outdoors with his mum so is happy in either situation. He is also house trained. He has a great temperament and already weighs over 30kgs. Raised with children, adults, other dogs and pets.

To view and reserve/collect please contact us.

The puppy is available for viewing and re-homing from now as we have been away on holiday up until this week.
