For sale here I have my 50 step through The bike is great as transport for a 16 year old for independent transport, a commuter, or just something to pop to the shops on every once in a whilst without needing to take the car, goes well, and comes with 6 months MOT as I had it tested for my daughter to ride when she turned 16, but due to circumstance she has been unable to use it. Just add the tax as required by law now... and ride away!, or I may be able to deliver for a charge (please call to negotiate) I have had the bike for around a year and ridden it a few times as shown by the difference on the mileage between the MOT and now and it goes well. It is a shame this is not being used, so I have decided to let somebody else enjoy it instead of having it sitting around. Good points. Good all round condition Reliable bike Low Miles Cheap Insurance through Swinton, details will be supplied as it is insured by them as another type of bike (fully legal arrangement agreed by their underwriters) Goes well 6 months MOT Starts first time, even after sitting for weeks, good battery. Bad bits Rear light lens has a chip out of the bottom corner from storage damage (does not even show in the pics!) Light scratches again from storage Fuel Gauge does not work (how the hell did we cope without them!) That's about it. Viewing welcome and encouraged, no test rides without a wad of cash in my hand ;-) and insurance must be proven prior to test.
