

# International Inter Speed Extra Strong, High Strength Hard Antifouling Paint, 3.5 litres

Location

South West, Isle Of Wight

<https://www.freeadsz.co.uk/x-411716-z>

This is an almost full 2.5 litre tin and a part full tin containing about 1 litre. The full tin is Dover White colour, which goes on pale grey and then turns white in the water. The part full tin is Grey colour, which would make a good first coat.

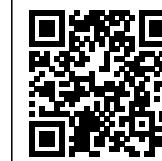

To quote the International description: -

"International Interspeed offers protection in the highest fouling conditions where a hard, scrubbable antifouling is required. Ideal for fast powerboats. The hard, scrubbable finish allows power washing clean-off whenever it is needed. FEATURES

Suitable for burnishing to provide a smooth finish.

Smooth finish for maximum slip through water." I have recently opened both tins and stirred the paint to check that it is still OK and has not gone lumpy or too thick, and it mixed up well and smoothly. Buyer is welcome to check this.

It is the most expensive AF paint I know of, the RRP is around £120, and even the discount price on ebay etc is around £90 for 2.5 litres. I am asking only £35 for nearly 1 1/2 tins full, 3.5 litres, a bargain! Buyer collects, or I could deliver in the Portsmouth area at fuel cost. ;
