## 16 GB RAM, 1TB Apple iMac Late 2011 - Slightly faded screen in Bognor Regis (400 G

South East, West Sussex Location

https://www.freeadsz.co.uk/x-411890-z

OS: OSX El Capitan

Processor: 2.7GHz Intel Core i5 Memory: 16 GB 1333 MHz DDR3

Graphics: AMD Radeon HD 6770M 512 MB

This is a somewhat faulty Apple iMac, therefore cheaper than some of the others. It is a very powerful computer but has a slightly faded screen, the left half is sometimes a bit darker. It works perfectly well for most situations but as I require it for Photoshop, I've decided it is time to move on and buy a new one for my work.

Comes with original box. Doesn't come with keyboard and trackpad, can throw in for £50 extra but it works with most keyboards and mice that you may already have.

Collection.
