Orange, 1 owner, This one comes with KTM engine bars, full luggage and hand guards. The 1190 is radically different from the 990 it replaces. The whole package of chassis, electronic suspension and rider aids makes this 150bhp, 230kg bike seriously capable with more rider-friendly characteristics than any previous KTM Adventure. It can also be ridden fast and it has decent off-road suitability. Through the combination of lightweight tubular steel frame, die-cast aluminium swingarm and top-spec WP suspension, the handling is precise and the chassis feels incredibly balanced while offering clear feedback about exactly what's happening. The retention of a conventional chain means the bike reacts far more accurately to the rider's throttle inputs. The 19-inch front wheel gives a far greater feeling of security. Power is plentiful, smooth, clean, precise and easy to manage. The North West's finest family run motorcycle dealership, £7,995 p/x
