The Harmony Duo Twins Breastfeeding and Bottle Feeding Cushion is our NEW AND IMPROVED reversible feeding pillow that works in perfect harmony with you and you twins, giving you all the best nursing experience possible. Every mother's dream and, as parents of twins, highly recommended as your No.1 multiples-must-have item! Caring for twins in the first year is exhausting but by tandem feeding, that's feeding both of your twins at the same time, using the Harmony Duo Twins Plus Cushion, it will lighten your workload - given you'll be feeding them 8-12 times a day, you need a versatile twin cushion that will help get you through the early daze and beyond! **BREASTFEEDING TWINS - THE WHITE SIDE!** Breastfeeding twins at the same time takes a little practice, but once your twins are positioned correctly, you can relax and reap the rewards of tandem feeding! Gently angled on the white side, the foam cushion positions your twin babies naturally towards you for breastfeeding, helping them to latch on and aiding their digestion. The twin cushion is good for you too, as it elevates your twins to the right height, reducing strain on your neck, back and arms and allows you to tandem breastfeed hands-free! **BOTTLE FEEDING TWINS - THE BLUE SIDE!**

Whether you're expressing breastmilk, transitioning from breast to bottle, combination feeding or exclusively bottle feeding your twins, this twins feeding cushion is for you! Simply flip the cushion over to the flat blue side and let the memory foam layer softly cradle your babies during their feed. The memory foam layer is beneficial for your twin babies as it's temperature sensitive and relieves pressure points as it slowly changes shape, gently supporting their heads and bodies in a more ergonomically correct position. Plus you have the peace of mind knowing they won't roll off so easily! And, don't forget, as anyone can use this twin feeding pillow with ease, it's great for Dad, Grandma and any other carers you can rope in to
