A 1970's Peugeot bicycle for sale, comes with a set of easily removable mudguards plus front and rear lights. The bike has an incredibly light Reynolds 531 frame, Shimano 600 groupset (with downtube shifters) and has generally been a great bike to own - the PRN10e model was also used as a Tour de France training bike, so you get additional bragging rights! The bike has the usual signs associated with it's age, but other than the rear wheel (I'll get to that in a moment) it's in mechanically sound condition and has no major issues. The rear wheel current needs a new spoke then truing up as well as a new tyre, which I'm happy to get sorted before the sale for an additional £35 or if you'd rather do it yourself just bare in mind that you won't be able to ride it straight away. If you need any other details just give me a shout. Collection from.
