VW Passat estate TDI

Advertising on behalf of my grandfather, who has upgraded to a new MK7 Golf tdi estate

Owned since 2007, he purchased the vehicle when it was only 6 months old MOT April 2017

Full service stamped history and meticulously looked after

Cambelt and water pump changed in last few months, inc oil change etc

Tyres all good

2 keys

6 Speed manual gearbox

Bodywork very good for 10 year old, but is commensurate with age and not 100% mint, does have a couple of light scratches, most of which would come out with a good tcut etc

Interior excellent condition- not the normal family estate car! Has been used to go to meeting and business

Towbar - only been used to pull a small garden trailer around, not to haul a caravan around the country!
