Here we have a converted Highline Kombi for sale. Bought for conversion, it was brought straight over to Bilbo's to be built into a Nexa in October 2014. In keeping with the highline look, we did not fit rear windows so it has kept the unassuming look on the outside, whilst being a fully functioning camper inside. Base vehicle features include: Air-conditioning, alloy wheels, cruise control, front fog lights, privacy glass, R310 radio/CD, Leather steering wheel with multi-function controls, alarm, opening central windows, a trip computer, rear parking sensors and colour coded bumper & mirrors. The vehicle has barn rear doors without windows and does have diesel blown-air heating.
