Teddy is my 14 week old Cavachon. He has had a parvo injection plus his first two vaccinations complete. He is in the middle of being toilet trained and is doing very well. He is flead, wormed and microchipped and is a little bundle of fun and joy. He loves other dogs and cats and other animals so he will get along with pets as well. He loves children. Due to having to move abroad for work, I won't be able to look after him. He will come along with a puppy starter pack of food, toilet pads and his toys. NO TIMEWASTERS AND NO PRICE REDUCE!!! ONLY 5\*!!
