VW Golf GTI 1.8T (150bhp)

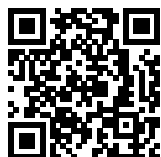

Very low mileage for its age - great runner, reliable car and in good condition. I am selling as I am pregnant with twins! £900 ono Full service history - last full service April 2016, MOT till April 2017. Cam belt changed @ 43,000.

Has a few minor scratches on bodywork - please see pics. Also, driver side wing mirror case is cracked. Comes with Pioneer CD/radio with bluetooth so you can use handsfree for calls or link up USB or ipod/iphone for music. Engine mgmt light comes on sporadically no idea why as there is absolutely nothing wrong with the engine/performance (which will be proven on test drive). Any questions or further info needed, please let me.
