I have 2 black female kittens with slight tabby markings they are 14 weeks old they have had all injections and are flea and wormed. They are also microchipped. The price will reflect this. They will come with: 2 months flea and worm treatment each Food bowls Litter tray and litter Food treats and kitten milk Toys A blanket A brush I would like them to go as a pair as they were originally going to a family who can no longer have them due to allergies that were unknown. ;
