

Carlsboro bass amp and 15 inch Goodmans speaker cabinet (120 GBP)

Location **West Midlands, Herefordshire**
<https://www.freeadsz.co.uk/x-424867-z>

Description Carlsboro amplifier and 15 inch Goodmans speaker cabinet I think that this combination would be considered in the “legacy” class. It has been in my hands for around 25 years. Despite the long period of ownership, it has never been excessively used, partly as a result of where I live, and partly due to my rather modest ability. I believe these items would be considered to be of professional standard – for their time. As you will see Reverb and Suzz functions are incorporated, and the footswitch and necessary cables are included Suggested price for this ensemble might be around £120 ono Contact me on 01432 265346 01432 2653...(click to reveal full phone number) or 07802 746344 07802 7463...(click to reveal full phone)
