- Cam belt inspection confirming its condition
- Overall condition of this vehicle is fantastic with a few marks due to age
- Vehicle has been fully valeted and polished
- Since receiving this 2008 VW Fox Direct from Insurance in August due to the high cost of dealer repair

this vehicle has been classed as not cost effective so it's passed onto us. We specialise in automotive repairs from full body work to full engine rebuilds from racing cars to family cars. We access different manufacturers databases to find all information for each vehicle. We report following to each vehicle: detailed history report and our own insight to how the vehicle has been maintained during its life. Many buyers apply for finance (only if a handbook is available to a vehicle, we will look at independent work carried out. Once we have obtained all information we then go through each vehicle in detail to confirm any work required and then carry out this work, this will be by one of our engineers. Once all work is completed a full vehicle check along with a full service check is carried out during the final stages of completion. Only then we we will approved the vehicle fit manufacture standard.

If you are requiring any information or more photo of vehicle of before and after please contact
