Semi-permanent eyebrows in Sunderland, UK. I use the ancient technique of microblading combined with the latest training to draw each hair stroke by hand, so that you get the most natural looking brows possible.

Microblading can be used to add definition, create a whole new shape or fully reconstruct brows that have been lost to alopecia, chemotherapy, etc. The process is far less traumatic to the skin than traditional tattooing using needles, and the result is a crisper, sharper hair.
