

Female dobermann (150 GBP)

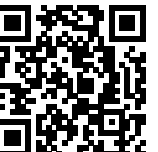

Location **East Midlands, Northamptonshire**
<https://www.freeadsz.co.uk/x-426988-z>

Shahs a is being fostered by me
SASHA
BREED DOBERMANN LIVER AND TAN
SEX FEMALE
AGE 6
VACS UP TO DATE

MICROCHIPPED YES Sasha is house trained and is none destructive she knows sit,wait,down and bow she also gives paw she does not like cats and is very fussy about other dogs SASHA is strong on the lead she is best suited on a harness or half check collar we use a double ended lead with one end on the collar and the other on the harness she does calm down after about ten mins her recall needs work she will get in the car but will bark with excitement SASHA is very good with dog savvy children 10+ . SASHA was very over weight but she is on a diet controlled food and is losing weight at a steady pace she has no tip bits the only treat she has in chopped carrots in a Kong ball which she loves she has no other medical needs SASHA shows no interest in toys but loves her small teddy which she sucks to go to sleep she prefers a plastic bed with a vet bed fleece in although she is not aggressive she will bark at intruders if someone enters you garden or property uninvited but loves invited visitors she loves being with you and if she can get away with it curl up with you on the sofa she does have her tail which is a deadly weapon and low standing ornaments won't stand a chance when it wags . She would be best suited to a family with older children who is willing to work on her recall and socialisation with other dogs I can't fault her in the house she's been a pleasure to foster

Doberman or large breed experience would be great any question please asked no matter how silly the question we would be happy to answer if you are in a large town you should not need to check details and by the way if you have any questions you can then please email informed about her she will be a happy dog to live with if you are interested in adoption please email or phone
