

Doberman puppy (1,100 GBP)

Location **South West, Hampshire** https://www.freeadsz.co.uk/x-427423-z

Doberman 16 week old brown tan puppy female. She is kc registered. All her injections have been done including rabies one. She is housetrained and will go to sleep from 10pm till 6am. She likes other dogs and is good with my grandkids. She knows sit and down she will be a clever dog. She is a very calm pup around the house considering her breed to but it is only me and hubby whole different ball game when grandkids come round but she just has fun with them. We bought her without even considering our 15 year old jack russell she just keeps hiding away so we have said we will find a loving family home for the pup so please no timewasters as she has got under our.
