What a lovely example it is. Being the Titanium model it is right up there with the amount of specification it has so please do not confuse it with any of the lesser spec'd models that are available on the market as the extras really do make a difference. The S-Max is an extremely spacious and practical family MPV but at the same time does not feel like you're driving a mini bus. I would go as far to say that the S-Max is the best 7 Seater to be behind the wheel of and you really can have some fun in it. It benefits from going through our workshop where it receives not only a Full Service but also a comprehensive acar2go M
