Bought as show room model only 3 months ago but never used also includes carpet and ground sheet both never used...

A spacious and sturdy family tunnel tent that will comfortably sleep up to 6. With a large living area and three bedrooms, there is plenty of space in the Outwell Palm Coast 6 Family Tent for families and groups of friends. It pitches quickly, letting you set it up flysheet first or all together, using colour-coded poles and pre-attached inners and guylines for easy assembly. The separate bedrooms will comfortably sleep 5 people, but will easily take up to 6 without the need to use the living area as an extra bedroom. A large front canopy over the main door offers some shelter from rain/sun, while an additional side door aids ventilation and gives you another entry/exit point. The strong, resilient and reliable Duratec fibreglass poles flex enough to keep the tent stable in poor conditions, holding up well when the weather turns bad. Full mesh doors - ventilate while keeping out insects

Large windows let in plenty of light, with toggle-up curtains when you want privacy

Pre-attached and adjustable inner tents make pitching easy

Organiser pockets help to keep your tent tidy and get your gear off the floor

'Bathtub' style groundsheet keeps out draughts and insects

Lamp holder and light cable tidies - no tripping over stray wires
