Logitech Performance MX Wireless Mouse(UK version) - Brand New! Logitech Darkfield laser tracking gives you precise cursor control on virtually any surface The tiny Logitech Unifying receiver stays in your notebook. There's no need to unplug it when you move around The flexible recharging system uses a micro-USB cable to recharge your mouse through your computer or a standard wall socket Hyper-fast scrolling lets you go through long documents and web pages with a single spin of the nearly frictionless scroll wheel The sculpted, right-handed shape guides your hand to a naturally poised position and places integrated control.

Product Description With your Logitech® Performance Mouse MX™, you've got the power to conquer almost any surface and any task without a second thought.

Performance

- Logitech® Darkfield Laser Tracking™: You get accurate, precise cursor control on virtually any surface, even glass tables (4 mm minimum thickness) where optical and standard laser mice fail. Learn more.
- Hyper-fast scrolling: Fly through long documents and Web pages with a single spin. Or use click-to-click scrolling for the precision you need when navigating lists, slides, and images.
- Sculpted, right-handed shape: Designed to fit your hand and put it in a comfortable, natural position.
- Logitech® Advanced 2.4 GHz wireless: You get the reliability of a cord plus cordless convenience and freedom—fast data transmission and virtually no delays or dropouts.

Convenience

- Logitech® Unifying receiver: The tiny receiver stays in your notebook. There's no need to unplug it. You have one receiver for all your Logitech wireless devices, and when you make using a mouse, you can simply add the tiny Logitech Unifying receiver to your notebook or multi-tasker—no need to unplug the mouse—without multiple Unifying receivers.
- Flexible recharging: You can recharge your mouse using the tiny micro-USB cable through your computer or a standard wall outlet—even while you're using it. You'll always have the power you need to get the job done.
- Four thumb buttons: Do more with your mouse using the four customizable thumb buttons. Jump between open windows and applications, move backward or forward through Web pages, and zoom in and out of pictures.

* 4 mm minimum thickness
