Two day Lock Opening course
2 DAY TRAINING COURSE

The course is designed to enhance people's skills in non destructive entry of locks.
 The two day course is hands-on training on a one to one basis and consists of:
 Opening techniques using as many lock picks, lock tools and bypass techniques as possible.
 An introduction to pin tumbler and wafer locks and how they work.
 Picking of wafer locks which are commonly used on filing cabinets, desks drawers, small cash boxes and key safes, etc.
 Picking of garage door locks.
 Picking a variety of padlocks (pin tumbler and levers).
 Picking euro profile cylinders (commonly used on UPVC doors and composite doors).
 Picking rim cylinder locks (Yale type).
 Concluding Day 1 we will be working on an actual door using various techniques including letterbox tool, plastic mica, rake keys, bump keys and other bypass tools. Also simple entry to XYZ type locks (digital locks).
 Mortice lock stripping and assembly and an introduction to the names of the working components.
 Opening of 2 lever mortice locks with 'L' tools, over lifters and a demonstration of simple tools which you can use to bypass these locks.
 Opening 3 lever mortice locks to include the use of try out keys and 2-in-1 picks.
 Opening 5 lever mortice locks with 2-in-1 picks.

Opening 5 lever British Standard mortice locks with curtain picks, plasticine impressing and an introduction to pin and wafer locks.
 The course refreshes throughout the day with a lunch break included.
 At the end of the course you will be given a list of recommended tools up to £100 worth throughout the course.
 While discussing various ways of improving your new skills. This course costs only £350 per person.
