towns of Newport and Cowes. These can offer shops, banks, supermarkets, cafes and family entertainment. But why would you want to leave the park? You have everything you need right on the park! We even have an onsite shop!

Now looking back to all the great facilities we have on park, you now know how it can work for you and your family and how you can improve your leisure time for the better.

Lets Have A Look At What This Caravan has To Offer:

~~~~~  
~ The Lounge:

As you enter through the door you find yourself in the lounge which is tastefully decorated and provides ample floor space to not make you feel all the family feel like you are closed in. There is wrap around seating and lots of it. This enables all the family to enjoy a cosy night in together and not have to worry about room. One thing I personally find important is the comfort that a sofa provides and after sitting on this one I can say that I would happily have this as my sofa at home. Its perfect for its job.

~~~~~  
~ Dining Area:

The whole of the front of this holiday home is very open plan. As you enter through the door you have a dining area on your right. This consists of a free standing table and chairs where you can sit down and enjoy a meal together. Free standing furniture is a feature that is sought after by many current owners as it gives them the flexibility and freedom to arrange the room as they wish.

~~~~~  
~ Kitchen:

As you enter further into the caravan you come into the kitchen. The kitchen is a lovely size and offers everything you would expect from a kitchen and more! It is still in keeping with the open plan feel but yet is separated from the lounge by an island, thus providing more preparation room and keeping the rooms separate. There is plenty of cupboard space to keep all your pots and pans so there would be no need at all for you to bring anything down with you at all! The kitchen cupboards are all in a light wood effect therefore making the caravan bright and airy but yet still allowing it to feel very homely.

~~~~~  
~Bathroom:

The bathroom is of a standard size for a caravan and offers a wash basin, a spacious shower and a toilet. It is neutrally decorated and continues the feeling of brightness throughout the bathroom.

~~~~~  
~ Bedroom 1:

The master bedroom is a lovely size! There is plenty of movement around the double bed and also room for storage boxes under the bed! There is a dressing table and stool also in the bedroom so you can sit and do work or do your hair or just read a book in the privacy of your own room! Also with storage space above the bed you can pop a few ornaments up to make it feel like home or store clothes so they are ready for you when you come on holiday. It really is a perfect example of an excellent sized master bedroom.

~~~~~  
~ Bedroom 2:

The second bedroom is currently laid out as a twin room with 2 single beds, but could easily accommodate a double bed, if required. There is plenty of room between the beds so an adult can comfortably walk between them and also sleep in them! This room follows the same pattern as the master bedroom and boasts a storage unit above the bed as well as a wardrobe at the end of the bed for storage of clothes, toys, etc.

I honestly believe this holiday home is something very special. It offers great value for money as well as very well decorated and also very well looked after. It is neutrally decorated so you can really put your own stamp on it. Throughout you can tell that it is extremely light and airy but yet gives the feel of homeliness that you would look for in a Holiday Home for you and your family.
