Beautiful Boston Terrier puppy 9 weeks old. Very very reluctant sale as we have only had her for a week but due to my work location being suddenly changed from my home town to almost 20 miles away it would not be fair to keep her to try and make it work. I would rather sell her now while she is so young and would not be affected. She is KC registered, health checked, microchipped, first vaccination and worming. We viewed the mother when we chose her. She is great with the kids has slept through the night every night so far with no sounds in a cage with the door open. She is such a fantastic little dog. I have a pet gate, cage, toys, food and some other bits that can go with her. I am so disappointed that work has got in the way of what would have been such a great.
