

Doberman female kc registered puppy. (950 GBP)

Location

South West, Hampshire

<https://www.freeadsz.co.uk/x-430726-z>

Brown tan 17 week old female pup. She is KC registered. She has had all her injections including rabies. She had a pet passport and is microchipped. She is fully house-trained. She sleeps all through the night to. She gets on and is gentle with my 2 young grandkids. Good with other dogs and likes travelling in my husband's truck to work. She really is a good pup to have around the home very placid and calm. We honestly are only having to rehome her because our 15 year old Jack Russell cannot put up with her puppiness and hides under the table all the time so we really need a loving family home for her while she's still young. We have put the price down quite a bit compared to what we paid as she is legally docked because we need a good home for her. You really wouldn't be disappointed with her. No offers on price.
