Here I have the last female Rottweiler x Labrador pup from a beautiful healthy litter of 7.

She is a fun little pup that is very playful and loves chasing feet, (she can barely run yet) it's fun to watch!

She loves cuddles and a nice scratch behind the ear.

She is constantly being handled so she will be more than used to people and having to cope with 6 other pups and mum she's used to other dogs too and enjoys playing with them.

She was born 20/08/2016 and will be ready to leave mum on 15/10/2016.

She will come with her first vaccination and a microchip.

We are asking a £50 deposit to secure her then £250 on the day.

Mum and dad are pictured together in the last photo, both dogs are half Rottweiler half Labrador and both have excellent temperaments with grown ups and children.

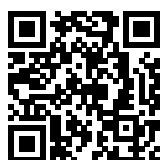

She is a chunky girl and won't stay small for long, she is going to be a big girl so please only contact if you have the time for her and you can handle her.
