

Aprilia RS 2011 (2,995 GBP)

Location **North, Cheshire**
<https://www.freeadsz.co.uk/x-431098-z>

Single Cylinder, 2-Stroke, Carburettor. Dell'Orto VHST 28, Electronic CDI Ignition, Liquid Cooled, 6-Speed, Chain Drive, Electric Start. Aprilia's profile of this bike The RS 125 is the undisputed leader among 125 cc supersports. Aprilia has always led the field in lightweight sports bikes, pioneering new concepts and advanced solutions, and developing technology that others have had to struggle to follow. This bike is very much a boys toy, and being the full power version means it's no slouch! This bike is the 2-stroke machine to own in your lifetime, finished in the eye catching Alitalia rep red, white & green colours mirroring the Max Biaggi superbike! Anyone that has owned an RS in the past will remember the beautiful smell of the 2-stroke engine and the absolute glorious noise it makes when you fire it up, and that just gets better as the bike warms up. This little pocket rocket isn't learner friendly so full or restricted (A2) licence holders only unfortunately. The bike has Aprilia's radial brakes which means stopping this little tiger isn't going to be a problem, and she is sat on Pirelli Diablo tyres so the rubber is of a descent standard which anything less than a good tyre is an injustice on a bike like this. You will still benefit from cheap tax on this model being a 125cc machine so only £17 per year. Because this is the full power model the insurance group does take a jump from the normal group 8 for RS's to group 12, but she is so worth the added expense as this thing is simply amazing! This bike has only covered 978 miles with it's only owner who was a mature rider who really looked after his machine, the polished frame alone is proof of that. Grab this one while she's here because at £2995 it won't be here long! REF
