Audio-Technica Free Way 200 Series ATW-R200 w ATW-T201. Description Audio-Technica Free Way 200 Series ATW-R200 w/ ATW-T201.

Audio-Technica's Freeway 200 Series Wireless System provides proven performance in a variety of settings. Each 200 Series professional VHF wireless system includes a receiver and either a body-pack transmitter or a handheld microphone/transmitter on a specific crystal-controlled frequency. The ATW-R200 receiver design features an innovative docking power supply configuration. An AC power adapter housed in a compartment in the receiver uses an IEC-standard detachable power cordset. Furthering its flexibility, the power adapter may be easily removed from the receiver case, permitting its use as a conventional in-line AC adapter. A novel dipole antenna system on the receiver improves operation by providing a ground element in addition to the usual signal element. Advanced dipole antenna system

Available in three traveling frequencies

Removable docking power supply inserts into back of receiver

Adjustable squelch control

ATW-T201 UniPak® transmitter includes variable microphone/guitar trim control
Brand new, unused, in case - sale due to.
