Audi a3 silver had a lot of work done new bushes full service new brake pads brand new battery ive really looked the car the body works fine needs a good polish has a tiny dent on the back boot but nothing major runs fine starts lovely the cars in good condition considering its age. Could possibly do with a new set of wheels there fine but my mechanic had it up on the lift when it was being serviced and said the alloys are a little knocked here and there but overall a good reliable car;
