This variant was made for those who love to drive. With a unique, expressive personality distinguished by the R-Design grille, contour sport seats with R-Design logo, and matt silver mirror

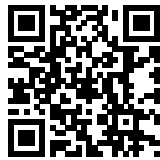

covers. I think I have covered just about everything but this is the very top of the range car so I may have missed a few things. The car is pre-registered with a diamond black car body with 100% protection. New paint. Your car again. Why when I have insurance. The car is in perfect condition as a new car and will be in the same condition before I am selling it. I have decided to sell it at your home and I will be in France on the 7th of October. The car is a 3500cc. The car cost £58000 pre-registered from a UK Volvo main dealer. If you look at cars for sale with this spec they are still at £58k so this is a great.
